## FACT SHEET

Number 02-09

September 4, 2002

### Percent Change in Iowa Budget and Various Budget Functions, FY 1999 - FY 2003, Revised

Source: Iowa Legislative Fiscal Bureau

The previous fact sheet, 02-08, displayed Human Services without Medicaid funding included, since much Medicaid funding is federal money. Since some of it is state money, this revised fact sheet displays the increase in Human Services with Medicaid funding added. With Medicaid funding included, the increase in the Human Services function of the Iowa budget is more than 12%, far outpacing the increase in total budget spending. With the Medicaid funding included, total spending on the budget also increases, from 5.47% to 7.13%
